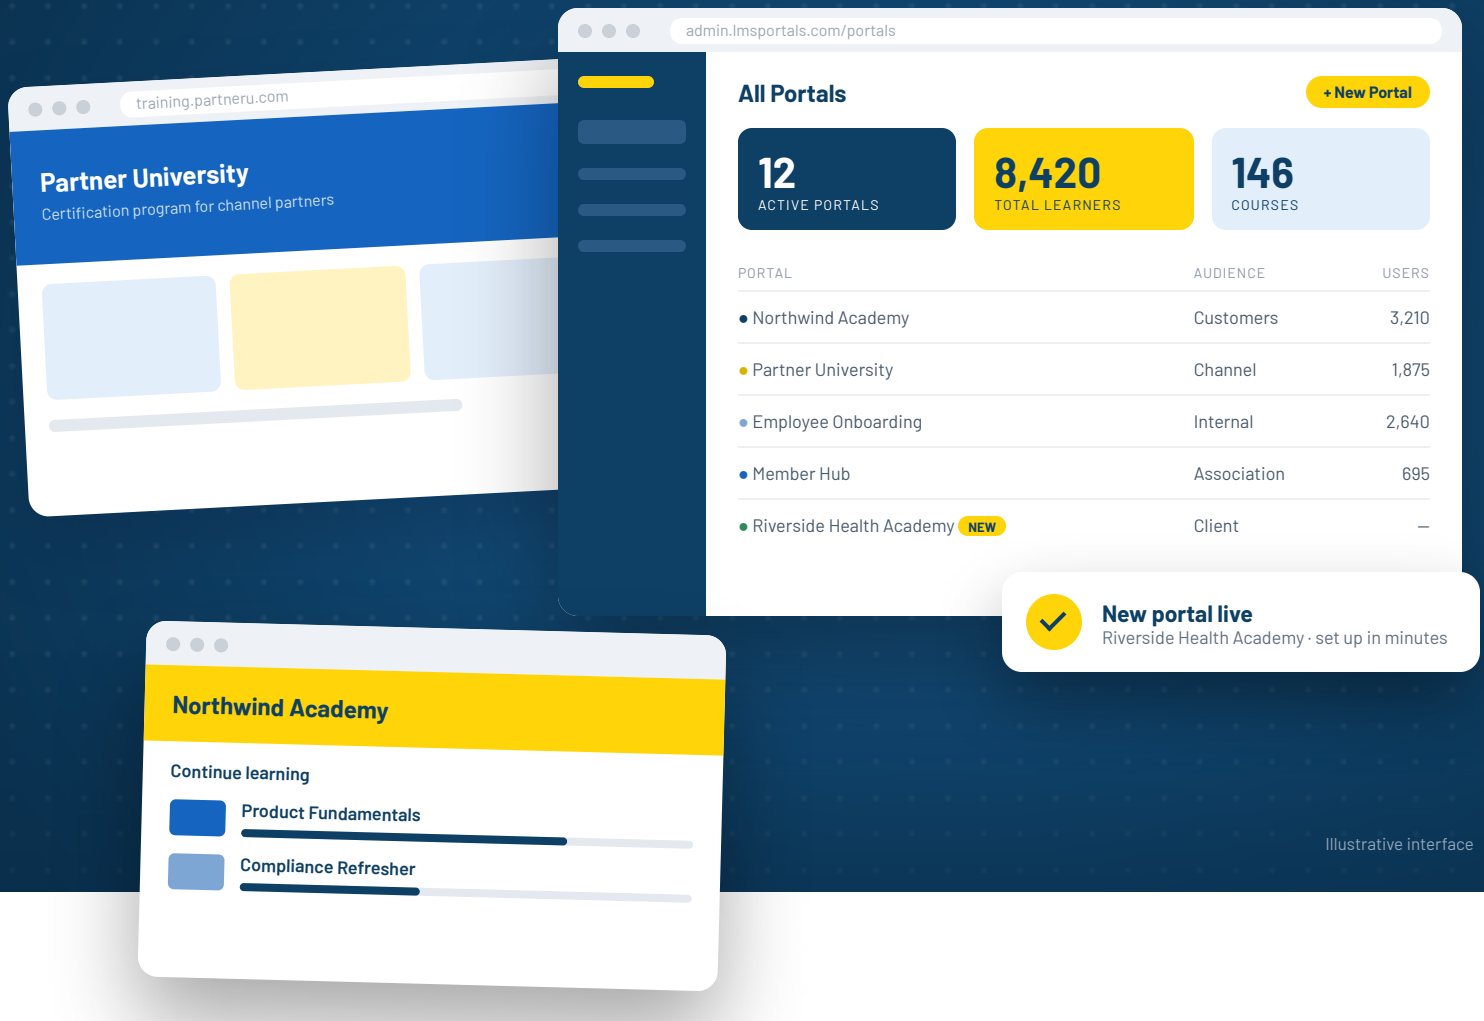
LMSPORTALS



Illustrative interface

ONE PLATFORM. EVERY AUDIENCE. COMPLETE TRAINING SOLUTIONS.

Launch branded learning portals **in minutes**, deliver custom-developed training content, and manage your entire learning operation from one platform.

Portals in Minutes

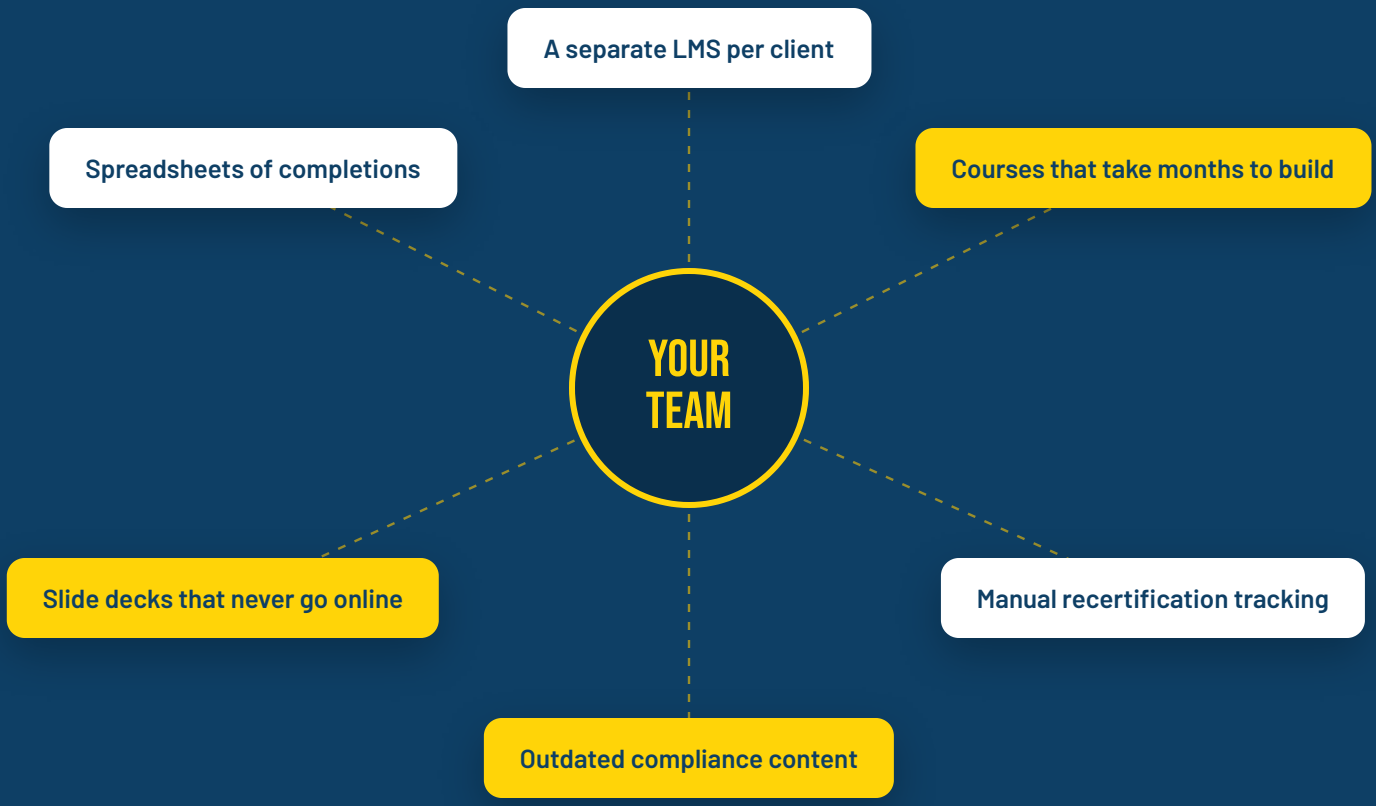
A branded learning portal for every client, team or audience.

Custom Courses, Built Fast

Your materials turned into interactive online training.

Scale Without Complexity

Manage every program from one central platform.



THE TRAINING CHALLENGE

EVERY AUDIENCE NEEDS ITS OWN EXPERIENCE — AND TRAINING CONTENT WORTH COMPLETING. MOST PROVIDERS DELIVER ONLY HALF THE SOLUTION.

THE TECHNOLOGY PROBLEM

- Separate platforms multiply cost and admin work
- Launching a new program takes months
- Managing recurring training requirements is complex

THE CONTENT PROBLEM

- Custom course development is expensive and slow
- Existing materials are hard to turn into engaging online courses
- Compliance content needs constant updating
- Training providers can't scale without adding overhead

> **If your platform and your content can't scale with your programs, growth turns into overhead.**

THE MULTI-TENANT SOLUTION

Meet the LMS Portals Multi-Tenant Learning Platform

Create a fully branded learning portal for every audience you serve — each with its own users, content and reporting — and manage them all from one central administrative environment.

Launch Portals in Minutes

Create and configure branded learning environments without lengthy implementation projects.

Complete White Labeling

Customize each portal with its own logo, colors, homepage, branded URL, email communications and certificates.

Centralized Administration

Create and manage multiple learning portals from a central administrative environment.

Separate Learning Environments

Manage distinct audiences, users, training content and reporting for each portal.

Reusable Training Content

Leverage course content across multiple training environments, so one investment serves every audience.

Scalable Training Delivery

Start with a single portal and expand as your training business or organization grows.

THE LEARNER EXPERIENCE

Everything a Learner Needs, in One Clean Dashboard

Learners sign up, browse the catalog, enroll in courses and pick up where they left off. Progress, learning paths, certificates and shared resources sit together in one place.

Course Catalog & Enrollment

Category filters and simple enrollment in free or paid courses.

Personal Dashboard

Courses in progress, completions and activity at a glance.

Learning Paths

Guided sequences of courses with due dates and a path certificate.

Certificates on Completion

Downloadable certificates branded with your logo.

Community & Communication

Stay connected with administrators, supervisors and fellow learners.

Shared Resource Library

Videos, PDFs and job aids shared with individuals or groups.

FLEXIBLE TRAINING DELIVERY

Self-Paced, Live Online and In the Room — All in One Place

Deliver the eLearning you already have, courses we build for you, and ready-made library content alongside live webinars and classroom sessions. Learners see everything in one portal.

Self-Paced eLearning

Industry-standard SCORM courses with dynamic delivery, so updates reach every portal without re-uploading.

Live Webinars

Schedule virtual sessions, register learners and share join links and recordings.

Instructor-Led & Blended

Publish classroom sessions with dates and locations, and combine them with online learning.

Assessments & Surveys

Quizzes, knowledge checks, assignments and feedback surveys built into any course.

Structured Learning Paths

Sequence courses, events and resources into programs with due dates.

Course Library & Resources

Access an existing course library and third-party content, plus video, PDF and digital job aids.

Built-In eCommerce

Offer free and paid training courses, accept online payments and generate revenue through your branded learning portals.

CUSTOM ELEARNING DEVELOPMENT

YOUR EXPERTISE. OUR TECHNOLOGY.

Engaging Online Training, Built for You

LMS Portals transforms your existing training materials, policies, procedures and organizational knowledge into interactive, professionally developed online courses — then delivers them in your branded portals.

Training Material Conversion

Transform presentations, PDFs, manuals and instructor-led materials into online learning.

Custom Compliance Training

Develop courses around your organization's specific policies and regulatory requirements.

Interactive Course Design

Engaging lessons, realistic scenarios, knowledge checks and assessments.

Rapid Course Development

Our AI-assisted course development and instructional design processes enable rapid, cost-effective production of custom interactive training.

Ongoing Content Updates

Keep courses aligned with evolving policies, procedures and business requirements.

Seamless Training Delivery

Deploy custom courses directly into your branded learning portals.

FROM EXISTING TRAINING MATERIALS TO INTERACTIVE ONLINE COURSES

1. **Your Materials**
   Slide decks, PDFs, manuals, policies and classroom content
2. **Instructional Design**
   Structured lessons, scenarios and assessments
3. **Interactive Course**
   Developed rapidly and reviewed with your team
4. **Your Branded Portal**
   Assigned, tracked and kept up to date

REPORTING & COMPLIANCE MANAGEMENT

Know Who Finished What, Keep It Current, and Prove It

Assign required training with due dates, reassign it automatically when it recurs, and track certificates before they expire. Supervisors see their own teams, and completion records are ready for audits.

Required Training Assignments

Assign courses and learning paths with due dates to individuals or groups.

Recurring Learning Paths

Automatically reassign annual and periodic training on schedule.

Certificate Expiration Tracking

Know whose certifications are current, expiring or overdue.

Supervisor-Level Reporting

Managers track their own groups, review assignments and run reports.

Completion & Audit Records

Training completion records and certificates kept as documentation for audits.

Custom Reporting

Choose the fields you need, filter results and save reports for reuse.

Comprehensive Training Reporting

Track learner activity, course completions, assessment results, survey responses and learning path progress through detailed, filterable reports.

WHY LMS PORTALS

One Partner for the Platform and the Training Content

01

Multi-Tenant Architecture

Scale training across clients, locations, departments and audiences — each in its own branded portal.

02

Training Content Development

A single partner for both technology and custom training content, including ongoing course maintenance.

03

Flexible Business Models

Support internal training, B2B training delivery, direct-to-consumer course sales and white-label reseller partnerships — with pricing that scales as you grow.

04

Ongoing Partnership

Flexible implementation, ongoing administrative and technical support, and continuing course development services.

Built for Every Audience You Train

- Organizations training employees
- B2B companies educating customers and partners
- Training providers and consultancies
- Associations and member groups
- Businesses selling courses direct to consumers
- Compliance-driven organizations

**START SMALL.
SCALE WITH CONFIDENCE.**

Begin with a single branded portal or a pilot training program, then expand your portals, courses and learner capacity as your needs grow.

THREE STRENGTHS. ONE PLATFORM.

PORTALS IN MINUTES

Create branded learning portals without lengthy implementation projects.

CUSTOM COURSES, FAST

Develop interactive training rapidly and cost-effectively.

SCALE ACROSS AUDIENCES

Deliver training across multiple organizations and audiences.
