POWERFUL LEARNING MANAGEMENT SYSTEM PORTALS

Cloud-Based, Multi-Tenant LMS with Centralized Administration

On-Demand Portals for Internal Training or to Create eLearning Revenue Streams

LMS Portals offers a cloud-based, multi-tenant Learning Management System (LMS) platform that allows our clients and partners to build and manage multiple unique eLearning environments instantly, on-demand. The system provides corporate training professionals with the tools they need to build and manage their entire learning program from one centralized, secure environment. Our platform allows you to logically scale and segment your learning and training activities by launching multiple, private eLearning portals.

FEATURES

- Launch new customized training portals, on-demand
- Quickly and easily build new courses and programs
- Add SCORM-Compliant courses to any of your portals
- Offer Live Training sessions
- Onboard users to portals and into their relevant courses
- Enable student messaging and collaboration
- Build and share customized analytics and reports
